### Success Story

Jeff was admitted to Advanced Specialty Hospital of Toledo from Flower Hospital with acute respiratory failure. He was placed on a vent with a tracheostomy. Jeff came to Advanced Specialty Hospital to get back on his feet with the help of our great nursing, therapy and respiratory staff. Prior to this incident, Jeff was independent with all activities of daily living and mobility. Jeff came to Advanced Specialty Hospital dependent for mobility, self-care and eating. With the help of excellent hospital staff and team-work, he was able to wean from the vent, completes self-care and ambulates independently and is able to eat. He was able to be decannulated, and discharged home without a tracheostomy.

Thanks for allowing Advanced Specialty Hospital to be part of your recovery!
